CABLE PACKAGES

Cable Types

MK4 Series

Whirlwind MK Series mic cables are built with Accusonic+2 cable and fitted with Whirlwind XLR connectors to ensure superior cable performance year after year.

SuperCAT Cables

Built to withstand the rigors of the touring world and designed for superior reliability, easy coiling, and superior signal transmission. Jacketed in rugged polyurethane that remains flexible and durable even in extreme temperatures.

NL4 Speaker Cables

Our Multiline speaker cables are the most reliable connectors and cables available today. Most cable manufacturers simply use the screw down terminals inside the connectors to terminate. We also solder the connections for extra stability.

NL8 Speaker Cables

Our Multiline speaker cables are the most reliable connectors and cables available today. Most cable manufacturers simply use the screw down terminals inside the connectors to terminate. We also solder the connections for extra stability.

Syntax® SVK

The SVK is our all round quality signal multipin connectors series. Versatile, super reliable, great ergonomics. Available in 8 different configurations, from 13 to 150 contacts.
